### *Skills for the future*

- Focused on upcoming niche and scarce competencies.
- Handpicked senior and expert resources from niche companies and freelancers.
- Proprietary search engine combine technology with industry and process experience.

### *Price Supremacy*

- Using GIG workers from low cost regions help us to offer unmatched price levels
- We are a platform which offers extremely low overhead costs and direct access to vast talent pool
- Transparency in pricing
- Pricing in SEK/Euro/INR (your choice) minimizes the currency exchange risk exposure

### *AI Powered Platform*

- Cutting edge platform powered by Artificial Intelligence
- Personalized search results: The more you use the App, the more personalized would be the search results reflecting the traits you are looking for
- Focussed search result based on industry and processes that the requestor belongs to
- Powerful analytics

### *Global Collaboration Platform*

- Sharing industry best practices and conducting trainings on working with remote tools, meetings and global collaborations
- Minimize effects of cultural differences, language barriers, time-zones and bandwidth issues
- Setting up processes and methods for project management, demand specification, testing, change management etc

### *On Time & Above Customer Expectations*

- Standard agreements with customers and suppliers
- Compliance with standardized frameworks as GDPR
- Quality assurance methods and processes to assure timely delivery and enhance customer expectation
